

BETTER SERVICE IN MAIL MUCH DESIRED

Frank Callaway, one of the extensive ranchers of the Carrant Creek section of Nye county, who was an Ely visitor last week, complains bitterly and with just cause, in regard to the present mail service existing between Ely and Tonopah. Under present conditions the residents of Carrant, Duckwater, Railroad valley, Nye, Willow Creek, Arrowhead, Warm Springs and other settlements between Ely and Tonopah cannot get a letter in or out of Ely or Tonopah in less than five days, although a weekly service between the two towns is maintained by the government. The trouble is that the mail leaves Ely and remains over at Presburg one day. On the following day it is taken to Carrant, the next day to Nye and Arrowhead and on the following day to Tonopah. What the people of all that vast section want is a mail service that runs direct from Ely to Tonopah, returning on the following day, which would not create an additional expense to the government, but would give all residents between the two towns a direct service three times a week. They are certainly entitled to this service, which would be a great convenience to them, and it would also enhance business relations between these two communities and the business centers of Ely and Tonopah. Mr. Callaway states that there are enough fruits and vegetables rotting in the grounds of the orchards and gardens of Carrant to almost supply the Ely market if there was some way to get the stuff into town. Ranchers cannot afford to take the time to haul their fruits and vegetables a long distance to market but they could be sent in three days a week by local mail or express and would greatly improve market conditions for the growers and at the same time supply the wants of local people now depending almost wholly on California fruits and vegetables.

TONOPAH GOLD HILL TO BE DEVELOPED

Work will be resumed in the near future on the Tonopah Gold Hill Development company's property on Lone Mountain, situated about twelve miles from Tonopah. While development work has been of an exploratory nature through the running of adits and the sinking of shafts to short depths, the showing is reported as being unusually good. Frank J. Marty of San Francisco, president of the company, is a visitor to Tonopah, and during the past couple of days has been making examination of the property with a view to obtaining development.
